PREFACE

The USA *Declaration of Independence* reminds us:

5 ...*That to secure these rights* [i.e., “unalienable Rights, that among these are Life,
Liberty and the pursuit of Happiness”], *Governments are instituted... That whenever any*
10 *Form of Government* [or institutional governance] *becomes destructive of these ends, it*
is the Right of the People to alter or to abolish it, and to institute new Government [or
institutional governance]...

15 ...*Governments* [or institutional governance] *long established should not be*
changed for light and transient causes; and accordingly all experience hath
shewn, that mankind are more disposed to suffer, while evils are sufferable, than
to right themselves by abolishing the forms to which they are accustomed...

ABSTRACT

5 This paper provides the 1st expansion paper for the *destructive institutions** Framework. The purpose of this paper is to expand the use of the *Destructive Institutions Framework* to personal corruption/crime, i.e., individual Malignant Societal Entities – *destructive individuals* and *criminal individuals*. The intent is to provide an expansion of the *Destructive Institutions Framework* for researchers working on personal corrupt/criminal behaviors, i.e., leaders of *destructive institutions*, modern human trafficking, terrorism, official/political corruption (e.g., bribery, extortion, cronyism, etc.), etc. The expansion also demonstrates the commonality among all Malignant Societal Entities (individual or institutional) and the thin line separating crime from legalized destruction.

15 Key Recommendation: There are multiple spawning relationships among Malignant Societal Entities, e.g., *destructive institutions* can spawn other *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals*. Thus, all Malignant Societal Entities must be targeted for elimination (by the elimination of their respective contracts), i.e., *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals* must be the target of elimination in order to eliminate the vicious spawning cycle of these Malignant Societal Entities.

20 This paper can be used as support for paper preparation for the 11th Annual Workshop on Unintended Consequences. There is a Call For Papers on Destructive Institutions Predictive Analysis for a Mini-Workshop during the 11th Annual Workshop. See Appendix B for the Call For Papers. The *Destructive Institutions Framework* is described in the following paper and is prerequisite reading:

25 Destructive Institutions:
Systems-Based Commonality from Institutional Slavery to Fossil Fuel Institution (Climate Crisis) –
The Understood/Unintended Consequences of the Complex of Amoral Power (Invisible Hand)
by
Michael J. Fargano
Issue 2 – Working Paper – Request for Comments
14 April 2020

35 The first four applications of the *Destructive Institutions Framework* are included in the framework paper. These are: (1) chattel slavery (USA historical focus); (2) climate crisis (USA and worldwide focus); (3) mass shootings crisis (USA focus); (4) opioid crisis (USA focus with potential for worldwide crisis). The first four applications were *destructive institutions for profit* applications of the *destructive institution contract*. Application No. 5 covers the worldwide ingress refugee crisis; it is the first *destructive government* application, specifically a democratic *destructive government* application. Application No. 6 covers the USA Federal Government Perverse Response to the COVID-19 Pandemic Crisis; this is the second democratic *destructive government* application. Application No. 7 covers the USA Perverse Capitalism, related to Application No. 6; this is the third democratic *destructive government* application. See Appendix A for a web link to the *destructive institutions* body of work.

The structure of this paper is as follows:

- Introduction

*Convention for this paper: all new definitions are shown in *italic*, e.g., *destructive institutions*. See the *Destructive Institutions Framework* paper for the definitions.

Paper Revision History

- Working Paper Issue 1: 06 Aug 2020 (Under the title: *The Destructive Institutions Framework Expansion to Personal Corruption/Crime – Destructive Individuals*)
- 15 • Working Paper Issue 2: 18 Aug 2020 (Under the title: *Individual Malignant Societal Entities: Destructive Individuals and Criminal Individuals*)
- Working Paper Issue 3: 10 Oct 2020

INTRODUCTION

A *destructive institution* is a legal institution that uses Corruption (legalized or illegal) and Brainhacking (cognitive plays like disinformation, propaganda and conspiracy theories) as a core part of its sustainability and growth strategy and tactics; such that the security of unalienable Rights such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or destroyed; where, the institution's core gains including financial gains are correlated with powerful and large scale destruction* and where there is an out-of-control destruction situation with malfunctioning or no control limit to the destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of destruction (i.e., no/poor balance). There are two basic forms of *destructive institutions*: *destructive institutions for profit* (e.g., Fossil Fuels Institution driving the Climate Crisis) and *destructive governments* (e.g., democratic *destructive governments* driving the Refugee Crisis or Totalitarian States). The *Destructive Institutions Framework* paper reference above in the Abstract or in Appendix A (Body of Work References) has more details and formal definitions.

This paper provides the 1st expansion paper for the *Destructive Institutions Framework*. The purpose of this paper is to expand the use of the *Destructive Institutions Framework* to personal corruption/crime, i.e., individual Malignant Societal Entities – *destructive individuals* and *criminal individuals*. The intent is to provide an expansion of the *Destructive Institutions Framework* for researchers working on personal corrupt/criminal behaviors, i.e., leaders of *destructive institutions*, modern human trafficking, terrorism, official/political corruption (e.g., bribery, extortion, cronyism, etc.), etc. The expansion also demonstrates the commonality among all Malignant Societal Entities (individual or institutional) and the thin line separating crime from legalized destruction.

* “Destruction” is characterized as irreparable harms or damages, or harms or damages that are very difficult to remediate.

MALIGNANT SOCIETAL ENTITY SCHEMA

The table below shows the Malignant Societal Entity Schema – describing the superset that includes *destructive institutions*. The schema and analysis demonstrates the commonality among all Malignant Societal Entities (individual or institutional) and the thin line separating crime from legalized destruction. The scope of this paper is on individual Malignant Societal Entities (i.e., *destructive individuals* and *criminal individuals*). *Destructive institutions* are covered in the *Destructive Institutions Framework* paper. *Criminal institutions* are covered in a separate paper – see Appendix A for the *Institutional Malignant Societal Entities: Destructive Institutions and Criminal Institutions* paper.

Legality	Legal	Illegal
Scope		
Institution	Destructive Institution (Legal, per se, in the host Nation or State)	Criminal Institution (aka Criminal Organization, Organized Crime)
Individual	Destructive Individual (Not involved in Crime per se, e.g., Leader of a Destructive Institution)	Criminal Individual (aka, Criminal)

Note: This paper is not intending to analyze the psychology of individuals. The focus is functional systems analysis from an institutional perspective. As part of this work, individuals were analyzed from a “black-box” perspective in seeking the functional equivalent of the individual. The existing *complex of amoral power* model in the *Destructive Institution Framework* is used as the basis for this black-box functional equivalent of a *criminal individual* (working independently or part of a *criminal institution*).

DESTRUCTIVE INDIVIDUAL AND CRIMINAL INDIVIDUAL FRAMEWORKS

Applying the *Destructive Institutions Framework* to personal corruption or criminal behaviors is in effect applying the *complex of amoral power* from a *destructive institution* to an individual from a functional systems perspective. Such a person is generally an individual Malignant Societal Entity; one of two types: a *destructive individual* (analogous to *destructive institution*) or *criminal individual* (if the person is involved in criminal activities). For example, a way to model a *destructive individual* is a reduction or nexus of the *complex of amoral power* (present in a *destructive institution*); or, that a *destructive institution* is a reflection of a *destructive individual*. The later can be most easily seen in extreme cases like Totalitarian States, e.g., Hitler and Nazi Germany; Nazi Germany was a reflection of Hitler. The former can be seen in various individual sociopaths that engage in destructive behaviors, short of criminal activities – e.g., verbal and mental abuse of one's family; or a senior executive of a *destructive institution* (e.g., driving the Climate Crisis).

Destructive Individual and Criminal Individual Definitions

The definition of *destructive institution* copied from the *Destructive Institutions Framework* is:

destructive institution: An institution that has a *complex of amoral power* embedded in it operating in the background (as an invisible hand) and has a *destructive institution core* contained in it as a central sub-system operating in the foreground with one or more bonded *destructive institution contracts*. Synonyms (depending on institutional context): *destructive government*, *destructive industry*, *destructive corporation*, *destructive enterprise*, etc.

To apply/reduce the *destructive institution* definition to a *destructive individual*, the definition would be as follows:

destructive individual: An individual that has a *personal nexus of amoral power* as virtual functions that can work in the background or in the foreground with one or more bonded *destructive individual contracts*.

To apply/reduce the *destructive institution* definition to a *criminal individual*, the definition would be as follows:

criminal individual: An individual that has a *personal nexus of criminal power* as virtual functions that can work in the background or in the foreground with one or more bonded *criminal individual contracts*.

Complex of Amoral Power

The definition of the *complex of amoral power* copied from the *Destructive Institutions Framework* is:

complex of amoral power: The social complex characterized by amoral mutual self-preservation and growth relationships between and among: (1) the power of money/reward (capability), (2) the power of governmental/governance policy and enforcement (capability) and (3) the power of communications/influence (capability) that results in amoral (or corrupt) money/reward flows, government policy/enforcement actions and communications/influence transmissions. The *complex of amoral power* is the primary source of *destructive institution brainhacking*.

To apply/reduce the *complex of amoral power* as a *personal nexus of amoral power* for a *destructive individual*, the definition would be as follows (see **Figure 1**):

personal nexus of amoral power: A virtual complex of functions expressed by an individual, characterized by amoral mutual self-preservation and growth relationships between and among those virtual functions: (1) the power of personal money/rewards (desire, accumulation), (2) the power of personal governance policy and physical expression of these policies and (3) the power of personal communications/influence that results in amoral (or corrupt) personal money/reward flows, personal governance policy and physical actions, and personal communications/influence transmissions. The *personal nexus of amoral power* is the primary source of *destructive individual brainhacking*.

To apply/reduce the *complex of amoral power* as a *personal nexus of criminal power* for a *criminal individual*, the definition would be as follows (see **Figure 2**):

personal nexus of criminal power: A virtual complex of functions expressed by an individual, characterized by criminal mutual self-preservation and growth relationships between and among those virtual functions: (1) the power of personal money/rewards (desire, accumulation), (2) the power of personal governance policy and physical expression of these policies and (3) the power of personal communications/influence that results in criminal personal money/reward flows, personal governance policy and physical actions, and personal communications/influence transmissions. The *personal nexus of criminal power* is the primary source of *criminal individual brainhacking*.

Brainhacking

The definition of *destructive institution brainhacking* copied from the *Destructive Institutions Framework* is:

destructive institution brainhacking: The institutional amoral or corrupt communications/influence play to cognitive biases, defenses, and self-preservation that results in denial and rationalizations of destruction where the cascading result is the willful acceptance of one or more *destructive institutions* with the goal of solidifying supporters such that they have no or low empathy to the destruction and human impacts – and therefore disabling the checks and balances to the destruction.

To apply/reduce *destructive institution brainhacking* to *destructive individual brainhacking* for a *destructive individual*, the definition would be as follows:

destructive individual brainhacking: The individual amoral or corrupt communications/influence play to cognitive biases, defenses, and self-preservation that results in denial and rationalizations of destruction where the cascading result is the willful acceptance of one or more *destructive institutions* or *destructive individuals* with the goal of solidifying supporters such that they have no or low empathy to the destruction and human impacts – and therefore disabling the checks and balances to the destruction.

To apply/reduce *destructive institution brainhacking* to *criminal individual brainhacking* for a *criminal individual*, the definition would be as follows:

criminal individual brainhacking: The individual amoral, corrupt or criminal communications/influence play to cognitive biases, defenses, and self-preservation that results in denial and rationalizations of crimes and destruction where the cascading result is the willful acceptance of one or more Malignant Societal Entities (i.e., *destructive institutions*, *destructive individuals*, *criminal individuals* or *criminal institutions*) with the goal of solidifying supporters such that they have no or low empathy to the crimes and destruction and human impacts – and therefore disabling the checks and balances to the crimes and destruction.

Destructive Individual Contract and Criminal Individual Contract

The definition of *destructive institution contract* copied from the *Destructive Institutions Framework* is:

destructive institution contract (Short Definition): A forced relationship between a *destructive institution core* and individuals, groups of individuals, other institutions or general population – set by institutional policy; where, the institution's core gains including financial gains are correlated with powerful and large scale destruction* and where there is an out-of-control destruction situation with malfunctioning or no control limit to the destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of destruction (i.e., no/poor balance).

destructive institution contract (Long Definition with Clauses): A forced relationship between a *destructive institution core* and individuals, groups of individuals, other institutions or general population – set by institutional policy; where,

- the *destructive institution core*, via this relationship, is characterized as performing, licensing, approving or facilitating: funding, acts and/or communications that drives the institution's core gains including financial gains that are correlated with powerful and large scale destruction; where,
- these core gains are the rewards and reinforcement of rewards (i.e., significant control response to positive feedback) that sustains and grows further destruction; where,
- there is an out-of-control destruction situation (i.e., significant lack of control response to negative feedback) with malfunctioning or no control limit to the destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of destruction (i.e., no/poor balance); where,
- the security of unalienable Rights such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or destroyed; where,
- the relationship is unrepairable to make it right in an ethical society.

Destructive Individual Contract

To apply/reduce *destructive institution contract* to *destructive individual contract* for a *destructive individual*, the definition would be as follows (see **Figure 3**):

destructive individual contract (Short Definition): A forced relationship between a *destructive individual* and individuals, groups of individuals, institutions or general population – set by the *destructive individual's* personal governance policy; where, the *destructive individual's* core gains including financial gains are correlated with destruction and where there is an out-of-control destruction situation with malfunctioning or no control limit to the destruction (i.e., no/poor checks)

* “Destruction” is characterized as irreparable harms or damages, or harms or damages that are very difficult to remediate.

and malfunctioning or no control of the growth of destruction (i.e., no/poor balance).

destructive individual contract (Long Definition with Clauses): A forced relationship between a *destructive individual* and individuals, groups of individuals, institutions or general population – set by the *destructive individual's* personal governance policy; where,

- the *destructive individual*, via this relationship, is characterized as performing, licensing, approving or facilitating: funding, acts and/or communications that drives the *destructive individual's* core gains including financial gains that are correlated with destruction; where,
- these core gains are the rewards and reinforcement of rewards (i.e., significant control response to positive feedback) that sustains and grows further destruction; where,
- there is an out-of-control destruction situation (i.e., significant lack of control response to negative feedback) with malfunctioning or no control limit to the destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of destruction (i.e., no/poor balance); where,
- there are victims, such that: the security of unalienable Rights such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or destroyed; where,
- the relationship is unrepairable to make it right in an ethical society.

Criminal Individual Contract

To apply/reduce *destructive institution contract* to *criminal individual contract* for a *criminal individual*, the definition would be as follows (see **Figure 4**):

criminal individual contract (Short Definition): A forced relationship between a *criminal individual* and individuals, groups of individuals, institutions or general population – set by the *criminal individual's* personal governance policy; where, the *criminal individual's* core gains including financial gains are correlated with criminal destruction and where there is an out-of-control criminal destruction situation with malfunctioning or no control limit to the criminal destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of criminal destruction (i.e., no/poor balance).

criminal individual contract (Long Definition with Clauses): A forced relationship between a *criminal individual* and individuals, groups of individuals, institutions or general population – set by the *criminal individual's* personal governance policy; where,

- the *criminal individual*, via this relationship, is characterized as performing, licensing, approving or facilitating: funding, acts and/or communications that drives the *criminal individual's* core gains including financial gains that are correlated with criminal destruction; where,
- these core gains are the rewards and reinforcement of rewards (i.e., significant control response to positive feedback) that sustains and grows further criminal destruction; where,

- there is an out-of-control criminal destruction situation (i.e., significant lack of control response to negative feedback) with malfunctioning or no control limit to the criminal destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of criminal destruction (i.e., no/poor balance); where,
- there are victims, such that: the security of unalienable Rights such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or destroyed; where,
- the relationship is unrepairable to make it right in an ethical society.

Note that once law enforcement apprehends a *criminal individual*, that can put a terminal check or control limit on the *criminal individual* – but this is after the crimes are committed. While crimes are being committed, a *criminal individual* mitigates the impacts of law enforcement – and thus is operating without an effective control limit.

DESTRUCTIVE INDIVIDUAL CONTRACT EXAMPLES

The *destructive individual contract* examples in this section indicate numerous violations of the moral codes specified in the *Ten Commandments*. For more information on this, see Appendix C: Applying Violations of Moral Codes (the *Ten Commandments*) to the Destructive/Criminal Individual Frameworks.

Destructive Individual: Senior Executive of a Destructive Institution for Profit

With a *destructive institution for profit* there is a Bonded Responsibility and Authority (without Societal Accountability) relationship between that *destructive institution for profit* and a senior executive (e.g., CEO) of the *destructive institution for profit*. This senior executive is a *destructive individual* where there is tight alignment of the senior executive's *personal nexus of amoral power* and the *destructive institution's complex of amoral power*, i.e., alignment in amoral governance, rewards and communications. This leads to Legalized Corruption (e.g., amoral rewards/money flows to politicians) supporting the *destructive institution* and Brainhacking (e.g., amoral communications like disinformation) to gain mass support for the *destructive institution*. Thus there is also a Bonded Responsibility and Authority (without Societal Accountability) relationship between a politician supporting a *destructive institution* and the institution that is being supported by the politician. This politician is a *destructive individual* where there is a tight alignment of the politician's *personal nexus of amoral power* and the *destructive institution's complex of amoral power*, i.e., alignment in amoral governance, rewards and communications. In this case, the politician engages in and encourages Legalized Corruption and Brainhacking as part of the overall amoral behaviors for personal profit/rewards – i.e., the normal functioning of the politician's *personal nexus of amoral power*.

Several examples of this senior executive (or politician) Bonded Responsibility and Authority (without Societal Accountability) relationship can be seen with the *destructive institution contract* examples of *destructive institutions for profit* in the *destructive institution* Framework paper:

- Climate Crisis *destructive institution contract* (see Appendix B, Destructive Institutions

Application No. 2)

- Mass Shootings Crisis *destructive institution contract* (see Appendix C, Destructive Institutions Application No. 3)
- Opioid Crisis *destructive institution contract* (see Appendix D, Destructive Institutions Application No. 4)

In these cases, explicit *destructive individual contracts* are not necessary because of the tight governance relationship between the *destructive institutions for profit* and respective *destructive individuals* (i.e., senior executives or politicians).

Destructive Individual: Senior Leader of a Destructive Government

With a *destructive government* there is a Bonded Responsibility and Authority (without Societal Accountability) relationship between that *destructive government* and a senior leader (e.g., head of state) of the *destructive government*. This senior leader is a *destructive individual* where there is tight alignment of the senior leader's *personal nexus of amoral power* and the *destructive government's complex of amoral power*, i.e., alignment in amoral governance, rewards and communications. This leads to Legalized Corruption (e.g., amoral rewards/money flows to governmental senior leaders) supporting the *destructive government* and Brainhacking (e.g., amoral communications like disinformation) to gain mass support for the *destructive government*. Thus in this case, the *destructive government* senior leader engages in and encourages Legalized Corruption and Brainhacking as part of the overall amoral behaviors for personal profit/rewards – i.e., the normal functioning of the senior leader's *personal nexus of amoral power*.

Several examples of this governmental senior leader Bonded Responsibility and Authority (without Societal Accountability) relationship can be seen with the *destructive institution contract* examples of democratic *destructive governments* in the follow up *destructive institution* Application papers:

- Worldwide Refugee Crisis *destructive institution contract* (see Destructive Institutions Application No. 5)
- USA Federal Government Perverse Response to the COVID-19 Pandemic Crisis *destructive institution contract* (see Destructive Institutions Application No. 6)
- USA Perverse Capitalism *destructive institution contract* (see Destructive Institutions Application No. 7)

In these cases, explicit *destructive individual contracts* are not necessary because of the tight governance relationship between the *destructive governments* and respective *destructive individuals* (i.e., senior leaders).

CRIMINAL INDIVIDUAL CONTRACT EXAMPLES

Three *criminal individual contract* examples are provided in this section:

- Human Trafficker

- Terrorist
- Corrupt Official (e.g., corrupt politician).

The *criminal individual contract* examples in this section indicate numerous violations of the moral codes specified in the *Ten Commandments*. For more information on this, see Appendix C: Applying Violations of Moral Codes (the *Ten Commandments*) to the Destructive/Criminal Individual Frameworks.

5

Human Trafficker Application of *criminal individual contract*

- 10 For history and background on the Human Trafficking, see the *Wikipedia* page as a starting point that has links and references to other sources:
https://en.wikipedia.org/wiki/Human_trafficking

<i>criminal individual contract</i> Clause	Human Trafficker <i>criminal individual contract</i>
A forced relationship between a <i>criminal individual</i> and individuals, groups of individuals, institutions or general population – set by the <i>criminal individual's</i> personal governance policy; where,	<u>Forced Relationship</u> : Human Trafficking is a forced relationship between a <i>criminal individual</i> (called Human Trafficker) and individuals and groups of individuals – called slaves – set by the <i>criminal individual's</i> personal governance policy. The <i>criminal individual</i> is considered a slave owner or slave master. This is modern day slavery.
the <i>criminal individual</i> , via this relationship, is characterized as performing, licensing, approving or facilitating: funding, acts and/or communications that drives the <i>criminal individual's</i> core gains including financial gains that are correlated with criminal destruction; where,	<u>Support for Core Gains</u> : The <i>criminal individual's</i> gains are via Human Trafficking of the slaves – including performing, licensing, approving or facilitating: funding, acts and/or communications that drives the <i>criminal individual's</i> core gains including financial gains that are correlated with criminal destruction (of slaves' unalienable Rights) as part of normal Human Trafficking operations – i.e., grooming, kidnapping, psychological manipulation, sex slaves, labor slaves, organ harvesting slaves, slave trade, etc. (See destruction of unalienable Rights below).
these core gains are the rewards and reinforcement of rewards (i.e., significant control response to positive feedback) that sustains and grows further criminal destruction; where,	<u>Reinforcement of Rewards (Positive Feedback Response)</u> : The <i>criminal individual's</i> gains including financial gains are the rewards and reinforcement of rewards that sustains and grows further criminal destruction – i.e., sustains and grows Human Trafficking. The Reinforcement of Rewards (positive feedback response) of criminal destruction for profit/gains provides a key sustaining force for the Human

<i>criminal individual contract</i> Clause	Human Trafficker <i>criminal individual contract</i>
	Trafficking <i>criminal individual contract</i> .
there is an out-of-control criminal destruction situation (i.e., significant lack of control response to negative feedback) with malfunctioning or no control limit to the criminal destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of criminal destruction (i.e., no/poor balance); where,	<u>Out-of-Control Destruction (Lack of Negative Feedback Response)</u> : There is malfunctioning or no control limit to the criminal destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of criminal destruction (i.e., no/poor balance) with the <i>criminal individual</i> (Human Trafficker) having no or low empathy to the criminal destruction and human impacts (to the slaves) so there is not a limit to and no damping of slavery. This sociopath behavior and thinking provides key support for Human Trafficking. (See destruction of unalienable Rights below).
there are victims, such that: the <i>security of unalienable Rights</i> such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or destroyed; where,	<u>Destruction of Unalienable Rights</u> : The result is the <i>criminal individual</i> (Human Trafficker) acts as a tyrannical force against the slaves with the criminal destruction of the slaves' unalienable Rights – including Life, Liberty and the pursuit of Happiness.
the relationship is unrepairable to make it right in an ethical society.	<u>The <i>criminal individual contract</i> of Human Trafficking is Unrepairable</u> : The Human Trafficker <i>criminal individual contract</i> is something to be eliminated – not something to be fixed or repaired. The reader is encouraged or challenged to try to develop methods to fix or repair (not eliminate) the Human Trafficker <i>criminal individual contract</i> to make it right in an ethical society.

Terrorist Application of *criminal individual contract*

For history and background on the Terrorism, see the *Wikipedia* page as a starting point that has links and references to other sources:

<https://en.wikipedia.org/wiki/Terrorism>

5

<i>criminal individual contract</i> Clause	Terrorist <i>criminal individual contract</i>
A forced relationship between a <i>criminal individual</i> and individuals, groups of individuals, institutions or general population – set by the <i>criminal individual's</i> personal governance policy; where,	<u>Forced Relationship</u> : Terrorism is a forced relationship between a <i>criminal individual</i> (called a Terrorist) and individuals, groups of individuals, institutions or general population set by the <i>criminal individual's</i> personal governance policy. A <i>criminal individual</i> (Terrorist) is considered a fighter, disciple, believer, zealot, militant, extremist and/or radical in pursuit of the aims of ideological, political and/or religious convictions. The Terrorist's work is usually targeted toward civilians with the goal of invoking societal disruption, invoking revenge and/or causing ideological, political and/or religious changes that are aligned with the convictions of the Terrorist. A Terrorist that dies in the line of terrorism work, is usually considered a martyr.
the <i>criminal individual</i> , via this relationship, is characterized as performing, licensing, approving or facilitating: funding, acts and/or communications that drives the <i>criminal individual's</i> core gains including financial gains that are correlated with criminal destruction; where,	<u>Support for Core Gains</u> : The <i>criminal individual's</i> gains are via Terrorism – including performing, licensing, approving or facilitating: funding, acts and/or communications that drives the <i>criminal individual's</i> core gains including financial gains and/or radical religious gains and/or radical philosophy gains – that are correlated with criminal destruction (of victims' unalienable Rights) as part of normal Terrorism operations – i.e., bombings, mass shootings, kidnappings, etc. (See destruction of unalienable Rights below).
these core gains are the rewards and reinforcement of rewards (i.e., significant control response to positive feedback) that sustains and grows further criminal destruction; where,	<u>Reinforcement of Rewards (Positive Feedback Response)</u> : The <i>criminal individual's</i> (Terrorist's) gains are the rewards and reinforcement of rewards that sustains and grows further criminal destruction – i.e., sustains and grows Terrorism. The Reinforcement of Rewards (positive feedback response) of criminal destruction for profit/gains provides a key sustaining force for the Terrorist <i>criminal individual contract</i> .
there is an out-of-control criminal destruction situation (i.e., significant lack of control response to negative feedback) with malfunctioning or no control limit to	<u>Out-of-Control Destruction (Lack of Negative Feedback Response)</u> : There is malfunctioning or no control limit to the criminal destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of criminal

<i>criminal individual contract</i> Clause	Terrorist <i>criminal individual contract</i>
the criminal destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of criminal destruction (i.e., no/poor balance); where,	destruction (i.e., no/poor balance) with the <i>criminal individual</i> (Terrorist) having no or low empathy to the criminal destruction and human impacts (to the victims) so there is not a limit to and no damping of Terrorism. This sociopath behavior and thinking provides key support for Terrorism. (See destruction of unalienable Rights below).
there are victims, such that: the <i>security of unalienable Rights</i> such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or destroyed; where,	<u>Destruction of Unalienable Rights</u> : The result is the <i>criminal individual</i> (Terrorist) acts as a tyrannical force against the victims with the destruction of the victims' unalienable Rights – including Life, Liberty and the pursuit of Happiness.
the relationship is unrepairable to make it right in an ethical society.	<u>The <i>criminal individual contract</i> of Terrorism is Unrepairable</u> : The Terrorist <i>criminal individual contract</i> is something to be eliminated – not something to be fixed or repaired. The reader is encouraged or challenged to try to develop methods to fix or repair (not eliminate) the Terrorist <i>criminal individual contract</i> to make it right in an ethical society.

Corrupt Official (e.g., Corrupt Politician) Application of *criminal individual contract*

For history and background on the Political Corruption, see the *Wikipedia* page as a starting point that has links and references to other sources:

https://en.wikipedia.org/wiki/Political_corruption

5

<i>criminal individual contract</i> Clause	Corrupt Official <i>criminal individual contract</i>
A forced relationship between a <i>criminal individual</i> and individuals, groups of individuals, institutions or general population – set by the <i>criminal individual's</i> personal governance policy; where,	<u>Forced Relationship</u> : Political or Official Corruption is a forced relationship between a <i>criminal individual</i> (called Corrupt Official or Politician) and the general population that are impacted by the corruption – called citizen-victims – set by the <i>criminal individual's</i> personal governance policy. The <i>criminal individual</i> (Corrupt Official) is in an official governmental position; as an example the Corrupt Official accepts bribes or other favors in exchange for laws, regulations, enforcements and/or subsidies that support the person paying the bribe.
the <i>criminal individual</i> , via this relationship, is characterized as performing, licensing, approving or facilitating: funding, acts and/or communications that drives the <i>criminal individual's</i> core gains including financial gains that are correlated with criminal destruction; where,	<u>Support for Core Gains</u> : The <i>criminal individual's</i> gains are via Official or Political Corruption. This includes the Corrupt Official performing, licensing, approving or facilitating: Governmental funding, acts and/or communications that drives the <i>criminal individual's</i> core gains (via Corruption) including financial gains that are correlated with criminal destruction (of citizen-victims' unalienable Rights) as part of normal Official or Political Corruption exchanges, i.e.: law enforcement supporting crime, etc. (See destruction of unalienable Rights below).
these core gains are the rewards and reinforcement of rewards (i.e., significant control response to positive feedback) that sustains and grows further criminal destruction; where,	<u>Reinforcement of Rewards (Positive Feedback Response)</u> : The <i>criminal individual's</i> gains including financial gains are the rewards and reinforcement of rewards that sustains and grows further criminal destruction – i.e., sustains and grows Official or Political Corruption. The Reinforcement of Rewards (positive feedback response) of criminal destruction for profit/gains provides a key sustaining force for the Corrupt Official <i>criminal individual contract</i> .
there is an out-of-control criminal destruction situation (i.e., significant lack of control response to negative feedback) with malfunctioning or no control limit to the criminal destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of criminal destruction (i.e.,	<u>Out-of-Control Destruction (Lack of Negative Feedback Response)</u> : There is malfunctioning or no control limit to the criminal destruction (i.e., no/poor checks) and malfunctioning or no control of the growth of criminal destruction (i.e., no/poor balance) with the <i>criminal individual</i> (Corrupt Official) having no or low empathy to the criminal destruction and human impacts (to the

<i>criminal individual contract</i> Clause	Corrupt Official <i>criminal individual contract</i>
no/poor balance); where,	citizen-victims) so there is not a limit to and no damping of the Official Corruption. This sociopath behavior and thinking provides key support for Official or Political Corruption. (See destruction of unalienable Rights below).
there are victims, such that: the <i>security of unalienable Rights</i> such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or destroyed; where,	<u>Destruction of Unalienable Rights</u> : The result is the <i>criminal individual</i> (Corrupt Official) acts as a tyrannical force against the citizen-victims with the destruction of the citizen-victims' unalienable Rights – including Life, Liberty and the pursuit of Happiness.
the relationship is unrepairable to make it right in an ethical society.	<u>The <i>criminal individual contract</i> of Corrupt Official is Unrepairable</u> : The Corrupt Official <i>criminal individual contract</i> is something to be eliminated – not something to be fixed or repaired. The reader is encouraged or challenged to try to develop methods to fix or repair (not eliminate) the Corrupt Official <i>criminal individual contract</i> to make it right in an ethical society.

RECOMMENDATIONS

The foundational recommendations to eliminate a *destructive institution* (copied from the *Destructive Institution Framework*) are:

- For all *destructive institutions*: To eliminate a *destructive institution* (i.e., terminate it or transform it to a non- *destructive institution*) all *destructive institution contracts* in it must be eliminated; the prerequisite to eliminate a *destructive institution contract* is to eliminate or severely disrupt the supporting *complex of amoral power* by legal means.
- Specifically for all *destructive institutions for profit*: To eliminate or severely disrupt the supporting *complex of amoral power*, their legalized corruption and supporting *destructive institution brainhacking* must be eliminated, severely disrupted or otherwise neutralized by legal means.

The analogy is true to eliminate a *destructive individual* or *criminal individual*, i.e.:

- For a *destructive individual*: Eliminate the *destructive individual contracts* and severely disrupt or otherwise neutralize the *personal nexus of amoral power*.
- For a *criminal individual*: Eliminate the *criminal individual contracts* and severely disrupt or otherwise neutralize the *personal nexus of criminal power*. Given the criminal behaviors, this is a law enforcement matter.

There are multiple spawning relationships among Malignant Societal Entities, e.g., *destructive institutions* can spawn other *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals*. Thus:

- All Malignant Societal Entities must be targeted for elimination (by the elimination of their respective contracts), i.e., *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals* must be the target of elimination in order to eliminate the vicious spawning cycle of these Malignant Societal Entities.

Appendix B: CALL FOR PAPERS

Mini-Workshop: Destructive Institutions and Anticipatory Knowledge

Part of 11th Annual Unintended Consequences Workshop

10-11 May 2021 – University of Warsaw – Warsaw Poland

Home Page: <http://unintended.uw.edu.pl/>

(Face to Face Workshop Planned – Could be a Virtual Workshop with COVID Travel Restrictions)

*** **CALL FOR PAPERS** ***

- 10 GENERAL DESCRIPTION OF DESTRUCTIVE INSTITUTIONS FOR PURPOSE OF WORKSHOP
CALL FOR PAPERS: A Destructive Institution is a legal institution that uses Corruption (legalized or
illegal) and Brainhacking (cognitive plays like disinformation, propaganda and conspiracy theories) as
a core part of its sustainability and growth strategy and tactics; such that the security of unalienable
Rights such as Life, Liberty and the pursuit of Happiness of people are neglected, degraded or
15 destroyed; where, the institution's core gains including financial gains are correlated with powerful and
large scale destruction* and where there is an out-of-control destruction situation with malfunctioning
or no control limit to the destruction (i.e., no/poor checks) and malfunctioning or no control of the
growth of destruction (i.e., no/poor balance). There are two basic forms of Destructive Institutions:
Destructive Institutions for Profit (e.g., Fossil Fuels Institution driving the Climate Crisis) and
20 Destructive Governments (e.g., Democratic Destructive Governments driving the Refugee Crisis or
Totalitarian States).

For more detail and prior work on Destructive Institution, see the following:

- 25 The video presentation of the Destructive Institutions Body of Work at the 10th Annual
Unintended Consequences Workshop can be found here:
<https://youtu.be/ckoDFpcPsdg>

- 30 The Destructive Institutions Body of Work is posted on the Internet Archive:
https://archive.org/details/@michael_fargano

Primary contact on Destructive Institutions: michael.fargano@gmail.com

35 FOCUS OF MINI-WORKSHOP:

- The focus of the workshop is on predictive analysis regarding future states of Destructive Institutions.
This can be based on existing Destructive Institutions applications analysis (e.g., Climate Crisis,
Refugee Crisis, etc.) that are in the Destructive Institutions Body of Work or new applications analysis
of Destructive Institutions (e.g., Subjugation of Woman, Water Crisis, Rainforest Destruction,
40 Surveillance State, Authoritarian State example, Historical Example that can be use for Future State
predictive analysis, etc.).

Here are examples of questions that could be asked and answered as part of the research and analysis:

* “Destruction” is characterized as irreparable harms or damages, or harms or damages that are very difficult to remediate.

-- What future states are possible *without* a major disruption to Legalized Corruption and Brainhacking?

5

-- What future states are possible *with* a major disruption of Legalized Corruption and Brainhacking?

-- What are the limiting cases of future states under various scenarios?

10

-- How could Regime change impact future states?

-- How could disruptive innovations (e.g., technology) impact future states? How might the Destructive Institution (incumbents) respond to the innovation threats?

15

-- What are extreme scenarios that may be forced with the strain of profit and/or power loss and what are the resulting future states?

CALL FOR PAPERS – *NOT* EXTENSIVELY USING EXISTING DESTRUCTIVE INSTITUTIONS
BODY OF WORK: The existing Destructive Institutions Body of Work need *not* be extensively used as part of the research and analysis. Papers are welcome in taking the Destructive Institutions concept in new directions – under the Anticipatory Knowledge framework.

20

CALL FOR PAPERS – EXTENSIVELY USING EXISTING DESTRUCTIVE INSTITUTIONS
BODY OF WORK: The existing Destructive Institutions Body of Work can be extensively used as part of the research and analysis. The systems-based Destructive Institutions Framework is positioned for analysis regarding the future states of a Destructive Institution. The Destructive Institutions Framework can also serve to identify potential emerging Destructive Institutions. This can be accomplished in a structured way by using the Destructive Institutions Contract to understand the baseline state of a Destructive Institution and future states based on perturbations to the Destructive Institutions Contract.

25

Appendix C: Applying Violations of Moral Codes to the Destructive/Criminal Individual Frameworks

In this example, the *Ten Commandments* are used as the moral codes to apply against the *destructive/criminal individuals* Framework. Specifically *Ten Commandments* moral code violations are mapped and interpreted from a *personal nexus of amoral/criminal power* functional systems perspective; i.e., using the virtual functions (in amoral/criminal ways): (1) the power of personal money/rewards, (2) the power of personal governance policy and physical expression of these policies and (3) the power of personal communications/influence.

God is understood to be Love, promote Love and be the Creator of the Universe. From a Creator perspective, we understand that humans and all life on Earth are made of the basic elements of Earth and that life on Earth functions based on the understanding of scientific knowledge, e.g., chemistry, physics and biology. We understand Earth to be made of the basic elements of our solar system, Milky Way Galaxy and the Universe – and they all function based on the understanding of scientific knowledge. Thus humans and life on Earth have a direct connection with the Universe – understood in a scientific way and a religious way. Scientific knowledge is consistent with the understanding of God. There are false interpretations of God to deny and denigrate Science – this is a form of Brainhacking (cognitive plays, e.g., propaganda, disinformation, conspiracy theories, etc.) to gain mass political support for *destructive institutions* (e.g., Fossil Fuel Institution driving the Climate Crisis for profit). This is similar to the Nazi Regime under Hitler using false science and perverse interpretations of religion to rationalize Crimes Against Humanity – e.g., concentration camps, torture and mass killings of civilians. Thus, Brainhacking is a key method of support for Systematic Evil and is a basic violation of moral codes and is fundamentally anti-God (e.g., driving no/low empathy and disregard for The Golden Rule.) All Malignant Societal Entities (i.e., *destructive institutions*, *destructive individuals*, *criminal institutions* and *criminal individuals*) use Brainhacking as a key part of the Systematic Evil that they inflict on society.

The Golden Rule is the cornerstone of all religions – God's promotion of Love. Adherence to The Golden Rule promotes integrity of the social fabric. The goals of *Ten Commandments* is to seek compliance with the moral codes that it specifies where compliance promotes adherence to The Golden Rule and promotes integrity of the social fabric. Note, that the use of the *Ten Commandments* is not to promote any specific religion. All Abrahamic Religions (e.g., Judaism, Christianity, Islam) and other religions express these or similar moral codes in their respective sacred writings.

In the *destructive/criminal individuals contract* examples in this paper, there are numerous violations of the moral codes specified in the *Ten Commandments*.

The *Ten Commandments* are as follows copied from <https://www.bibleinfo.com/en/topics/ten-commandments-list>:

1. *You shall have no other gods before Me.*
2. *You shall make no idols.*
3. *You shall not take the name of the Lord your God in vain.*
4. *Keep the Sabbath day holy.*
5. *Honor your father and your mother.*
6. *You shall not murder.*
7. *You shall not commit adultery.*

8. *You shall not steal.*
9. *You shall not bear false witness against your neighbor.*
10. *You shall not covet.*

<i>Ten Commandments</i>	Personal Money / Rewards	Personal Governance Policy and Physical Expression	Personal Communications / Influence
<i>1. You shall have no other gods before Me.</i>	There would likely be amoral rewards associated with non-compliance. Gaining amoral rewards with a violation of this Commandment is wrongful or potentially evil.	Primary: This is an overarching moral code that supports compliance with other moral codes. God is Love – putting other gods (or corrupt actions or communications) before the Lord is anti-Love and drives an amoral life. By implication, living and acting by an amoral code and not living by The Golden Rule is non-compliance and damaging to the social fabric. This is wrongful or potentially an evil expression of personal governance.	Propagating non-compliance of this Commandment via communications would likely lead to amoral rewards. The amoral act of Brainhacking others with propaganda, falsehoods, conspiracy theories, etc. (i.e., corrupt communications) is non-compliance. Non-compliance here means corrupt communications elsewhere. This is wrongful or potentially evil.
<i>2. You shall make no idols.</i>	There would likely be amoral rewards associated with non-compliance. Gaining amoral rewards with a violation of this Commandment is wrongful or potentially evil.	Primary: This is a discipline regarding self governance and actions; as well as being a righteous role model. Non-compliance is an expression of non-compliance with the 1 st Commandment. Worship of idols or other objects, such as the worship of money and power is non-compliance. By implication, living and acting by an amoral code and not living by The Golden Rule is non-compliance and damaging to the social fabric. This is wrongful or potentially an evil expression of personal governance.	Propagating non-compliance of this Commandment via communications would likely lead to amoral rewards. The amoral act of Brainhacking others regarding this moral code with propaganda, falsehoods, conspiracy theories, etc. is non-compliance. Non-compliance here means corrupt communications elsewhere. This is wrongful or potentially evil.
<i>3. You shall not take the name of the Lord your God in vain.</i>	There would likely be amoral rewards associated with non-compliance. Gaining amoral rewards with a violation of this Commandment is wrongful or potentially evil.	Primary: This is a discipline regarding self governance and actions; as well as being a righteous role model. Non-compliance is an expression of non-compliance with the 1 st Commandment. This includes hypocritical actions. By implication, living and acting by an amoral code and not living by The Golden	Propagating non-compliance of this Commandment via communications would likely lead to amoral rewards. The amoral act of Brainhacking others regarding this moral code with propaganda, falsehoods, conspiracy theories, etc. is non-compliance. This includes hypocritical communications.

<i>Ten Commandments</i>	Personal Money / Rewards	Personal Governance Policy and Physical Expression	Personal Communications / Influence
		Rule is non-compliance and damaging to the social fabric. This is wrongful or potentially an evil expression of personal governance.	Non-compliance here means corrupt communications elsewhere. This is wrongful or potentially evil.
<i>4. Keep the Sabbath day holy.</i>	There would likely be amoral rewards associated with non-compliance. Gaining amoral rewards with a violation of this Commandment is wrongful or potentially evil.	Primary: This is a discipline regarding self governance and actions; as well as being a righteous role model. This is a overarching moral code of fair labor practices (e.g., having a day off from work). Non-compliance is an expression of non-compliance with the 1 st Commandment. By implication, living and acting by an amoral code and not living by The Golden Rule is non-compliance and damaging to the social fabric. This is wrongful or potentially an evil expression of personal governance.	Propagating non-compliance of this Commandment via communications would likely lead to amoral rewards. The amoral act of Brainhacking others regarding this moral code with propaganda, falsehoods, conspiracy theories, etc. is non-compliance. Non-compliance here means corrupt communications elsewhere. This is wrongful or potentially evil.
<i>5. Honor your father and your mother.</i>	There would likely be amoral rewards associated with non-compliance. Gaining amoral rewards with a violation of this Commandment is wrongful or potentially evil.	Primary: This Commandment is a threshold test in that non-compliance will lead to non-compliance with other Commandments and non-compliance with The Golden Rule and damaging to the social fabric. This is wrongful or potentially an evil expression of personal governance.	Propagating non-compliance of this Commandment via communications would likely lead to amoral rewards. The amoral act of Brainhacking others with propaganda, falsehoods, conspiracy theories, etc. is non-compliance. Non-compliance here means corrupt communications elsewhere. This is wrongful or potentially evil.
<i>6. You shall not murder.</i>	Gaining amoral rewards for murder is evil.	Primary: Non-compliance is a violation of The Golden Rule and damaging to the social fabric; murder is an evil expression of personal governance.	Using corrupt communications to deny, rationalize or lie about murder is evil; Brainhacking others with propaganda, falsehoods, conspiracy theories, etc. to cause others to murder or tolerate murder is evil.
<i>7. You shall not commit adultery.</i>	Gaining amoral rewards for adultery is wrongful or potentially evil.	Primary: Non-compliance is a violation of The Golden Rule and damaging to the social fabric; adultery is a	Using corrupt communications to deny, rationalize or lie about adultery is wrongful or

<i>Ten Commandments</i>	Personal Money / Rewards	Personal Governance Policy and Physical Expression	Personal Communications / Influence
		wrongful or potentially evil expression of personal governance.	potentially evil; Brainhacking others with propaganda, falsehoods, conspiracy theories, etc. to cause others to commit or tolerate adultery is wrongful or potentially evil.
<i>8. You shall not steal.</i>	Gaining amoral rewards for stealing is wrongful or potentially evil.	Primary: Non-compliance is a violation of The Golden Rule and damaging to the social fabric; stealing is a wrongful or potentially evil expression of personal governance.	Using corrupt communications to deny, rationalize or lie about stealing is wrongful or potentially evil; Brainhacking others with propaganda, falsehoods, conspiracy theories, etc. to cause others to commit or tolerate stealing is wrongful or potentially evil.
<i>9. You shall not bear false witness against your neighbor.</i>	Gaining amoral rewards for bearing false witness is wrongful or potentially evil.	Primary: Non-compliance is a violation of The Golden Rule and damaging to the social fabric; bearing false witness is a wrongful or potentially evil expression of personal governance.	Using corrupt communications in the form of bearing false witness is wrongful or potentially evil. Leaders in society have an obligation to always be truthful; Brainhacking others with propaganda, falsehoods, conspiracy theories, etc. to cause others to commit or tolerate bearing false witness is wrongful or potentially evil.
<i>10. You shall not covet.</i>	Gaining amoral rewards for coveting is wrongful or potentially evil.	Primary: Non-compliance is a violation of The Golden Rule and damaging to the social fabric; coveting is a wrongful or potentially evil expression of personal governance. Coveting or envy leads to other moral code violations.	Coveting or envy need not be explicitly expressed via communications. However, it is difficult to hide. Implicitly communicating coveting or envy is a form of corrupt communication and is wrongful or potentially evil; Brainhacking others with propaganda, falsehoods, conspiracy theories, etc. to cause others to commit or tolerate coveting and envy is wrongful or potentially evil.

Appendix D: Destructive/Criminal Individual Framework Figures

The following Figures are includes in this Appendix:
